

P2P PLUS™ DAILY TRACKER

HOW TO USE THE DAILY P2P PLUS™ TRACKER

1. Fill in each square with a ✓ when you've started a new conversation
2. In the total column, include the total number of conversations you started on that day
3. Consider including which platform where conversations were started (this makes it easier to track where sales are coming from)
4. At the end of the week, add up the numbers to see if you hit the weekly target of 125 new conversations (25 per day)
